About the Global Young Academy:

Founded in 2010, the Global Young Academy (GYA) is an international organization of young researchers with members from six continents. Members are elected for five-year terms. Each member is expected to participate in the Annual General Meeting (AGM) of the GYA (the AGM 2019 will be held from 29 April-3 May in Germany) and to actively contribute to one or more of the organisation's programmes. This includes participation, e.g., in policy development, promotion of the National Young Academies, or promoting science and education at the international level.
