

SCIENCE ADVICE
Working Group

Annual General Meeting and International Conference 2024

*Masterclass on Transdisciplinary Global Science Advice
for Policy and Diplomacy*

Embracing Diversity in Science Advice System

By:

Dr. Justine Germo NZWEUNDJI

Deputy Director of Research, Valorization and Innovation

*Institute of Medical Research and Medicinal Plants Studies
Cameroon*

Washington DC, May 2024

Outline

- **Language and Culture inclusion**
- **Traditional Knowledge inclusion**
- **INGSA-Africa transdisciplinary and global approaches**
- **Recommendations**

Language And Culture
Relationship

Making sense of knowledge

2/9

From Keynote Speech -Dr Vladimír Šucha during INGSA2018

Models of scientists-policymakers

3/9

- ❖ Technocratic model: scientific knowledge sustains the decision-making process
- ❖ Decisionist model: policy-makers lead in decision- making
- ❖ Pragmatic model: researchers and policy-makers are independent, open, both parties are considered

(Grimm et al,2019)

- providing opportunities to improve their abilities on science advice.
- help inform government decision-making for the development of better public policy.
- leading the continent's discussion on science advice

The Evolving Science Advisory LANDSCAPE IN AFRICA

A Consensus Study Report

Recommendations

**Legislative
support**

**Develop innovative ways
of engaging policymakers
like *co-creation of
research***

**Standards for
credible science**

**Coordinate
between Science
advice channels**
